

Press Release

Fortinet Reports Strong Fourth Quarter and Full Year 2025 Financial Results

Fourth Quarter 2025 Highlights

- Revenue grew 15% year over year to \$1.91 billion
- Product revenue grew 20% year over year to \$691 million
- Billings grew 18% to \$2.37 billion¹
- Unified SASE billings grew 40%
- GAAP operating margin of 33%
- Non-GAAP operating margin of 37%¹

Full Year 2025 Highlights

- Revenue grew 14% year over year to \$6.80 billion
- Product revenue grew 16% year over year to \$2.22 billion
- Billings grew 16% to \$7.55 billion¹
- Unified SASE & SecOps billings grew 24%
- GAAP operating margin of 31%
- Non-GAAP operating margin of 35%¹
- Free cash flow of \$2.21 billion¹
- Exceeded the 'Rule of 45' for the sixth consecutive year²

SUNNYVALE, Calif. - February 5, 2026 - Fortinet® (Nasdaq: FTNT), a global cybersecurity leader driving the convergence of networking and security, today announced financial results for the fourth quarter of 2025 and full year ended December 31, 2025.

"We are pleased with our strong finish to the year, highlighted by an excellent fourth quarter driven by broad-based demand across our portfolio, which drove billings above the high end of our guidance," said Ken Xie, Founder, Chairman and Chief Executive Officer of Fortinet. "We continue to execute our strategy by accelerating our investments in high-growth Unified SASE and Security Operations markets, delivering strong momentum while further strengthening our Secure Networking leadership. As the #1 firewall leader with a 55% unit market share, Fortinet is well-positioned to extend that leadership into SASE, driven by our rapidly expanding SASE adoption and growing customer demand. Our easy-to-adopt FortiSASE solution, powered by our single FortiOS operating system, supports both sovereign and public deployments, delivering high performance with significantly lower total cost of ownership than the competition."

Recent Business Highlights

- Announced an integrated solution with NVIDIA that delivers isolated infrastructure acceleration for the AI Factory, embedding FortiGate VM on BlueField-3 DPUs to provide firewalling, segmentation and policy enforcement directly in the infrastructure for higher performance, stronger isolation and simpler operations.

- Recognized as a Gartner Peer Insights™ Customers' Choice for Security Service Edge for the third consecutive year, making Fortinet the only cybersecurity vendor to receive this distinction.
- Named the inaugural Google Unified Security Recommended partner for network protection, recognizing FortiSASE and FortiGate NGFW for delivering converged networking and security natively on Google Cloud.
- Won the 2025 Red Dot Product Design Award for the FortiGate Rugged series, Fortinet's second consecutive win, recognizing design excellence, reliability and performance at the industrial edge.

Fortinet Expands Share Repurchase Authorization by \$1.0 Billion

Fortinet today announced that its Board of Directors has authorized an increase of its share repurchase program by \$1.0 billion worth of shares of common stock, for an aggregate authorized repurchase amount of up to \$10.25 billion through February 28, 2027. As of February 4, 2026 approximately \$1.38 billion remained available under the share repurchase program, including the \$1.0 billion increase. Repurchases under Fortinet's share repurchase program may be made through privately negotiated transactions or open market transactions, including pursuant to a trading plan in accordance with Rule 10b5-1 and/or Rule 10b-18 under the Securities Exchange Act of 1934, as amended. Fortinet's share repurchase program does not obligate Fortinet to acquire any particular amount of its common stock, and it may be suspended at any time at Fortinet's discretion. The timing and actual number of shares repurchased may depend on a variety of factors, including price, general business and market conditions, and alternative investment opportunities.

Guidance

For the first quarter of 2026, Fortinet currently expects:

- Revenue in the range of \$1.700 billion to \$1.760 billion
- Billings in the range of \$1.770 billion to \$1.870 billion
- Non-GAAP gross margin in the range of 80.0% to 81.0%
- Non-GAAP operating margin in the range of 30.0% to 32.0%
- Diluted non-GAAP net income per share in the range of \$0.59 to \$0.63, assuming a non-GAAP effective tax rate of 18%. This assumes a diluted share count of 746 million to 750 million.

For the fiscal year 2026, Fortinet currently expects:

- Revenue in the range of \$7.500 billion to \$7.700 billion
- Service revenue in the range of \$5.050 billion to \$5.150 billion
- Billings in the range of \$8.400 billion to \$8.600 billion
- Non-GAAP gross margin in the range of 79.0% to 81.0%
- Non-GAAP operating margin in the range of 33.0% to 36.0%
- Diluted non-GAAP net income per share in the range of \$2.94 to \$3.00, assuming a non-GAAP effective tax rate of 18%. This assumes a diluted share count of 747 million to 753 million.

These statements are forward looking and actual results may differ materially. Refer to the Forward-Looking Statements section below for information on the factors that could cause our actual results to differ materially from these forward-looking statements.

Our guidance with respect to non-GAAP financial measures excludes stock-based compensation, amortization of acquired intangible assets, gain on intellectual property matters and a tax adjustment required for an effective tax rate on a non-GAAP basis, which differs from the GAAP effective tax rate. We have not reconciled our guidance with respect to non-GAAP financial measures to the corresponding GAAP measures because certain items that impact these measures are uncertain or out of our control or cannot be reasonably predicted. Accordingly, a reconciliation of these non-GAAP financial measures to the corresponding GAAP measures is not available without unreasonable effort.

Conference Call Details

Fortinet will host a conference call today at 1:30 p.m. Pacific Time (4:30 p.m. Eastern Time) to discuss the earnings results. A live webcast of the conference call and supplemental slides will be accessible from the Investor Relations page of Fortinet's website at <https://investor.fortinet.com> and a replay will be archived and accessible at <https://investor.fortinet.com/events-and-presentations>.

First Quarter 2026 Conference Participation Schedule:

- **Bernstein TMT Forum**
February 26, 2026
- **Morgan Stanley Technology, Media & Telecom Conference**
March 3, 2026

Members of Fortinet's management team are expected to present at these conferences and discuss the latest company strategies and initiatives. Fortinet's conference presentations are expected to be available via webcast on the company's website. To access the most updated information, pre-register and listen to the webcast of each event, please visit the Investor Presentation & Events page of Fortinet's website at <https://investor.fortinet.com/events-and-presentations>. The schedule is subject to change.

About Fortinet (www.fortinet.com)

Fortinet (Nasdaq: FTNT) is a driving force in the evolution of cybersecurity and the convergence of networking and security. Our mission is to secure people, devices and data everywhere, and today we deliver cybersecurity everywhere our customers need it with the largest integrated portfolio of over 50 enterprise-grade products. Well over half a million customers trust Fortinet's solutions, which are among the most deployed, most patented and most validated in the industry. The [Fortinet Training Institute](#), one of the largest and broadest training programs in the industry, is dedicated to making cybersecurity training and new career opportunities available to everyone. Collaboration with esteemed organizations from both the public and private sectors, including Computer Emergency Response Teams ("CERTs"), government entities, and academia, is a fundamental aspect of Fortinet's commitment to enhance cyber resilience globally. [FortiGuard Labs](#), Fortinet's elite threat intelligence and research organization, develops and utilizes leading-edge machine learning and AI technologies to provide customers with timely and consistently top-rated protection and actionable threat intelligence. Learn more at <https://www.fortinet.com>, the [Fortinet Blog](#) or [FortiGuard Labs](#).

Forward-Looking Statements

This press release contains forward-looking statements that involve risks and uncertainties. These forward-looking statements include statements regarding any indications related to future

growth and market share gains, our strategy going forward, and guidance and expectations around future financial results, including guidance and expectations for the first quarter and full year 2026, and any statements regarding our market opportunity and market size, and business momentum. Although we attempt to be accurate in making forward-looking statements, it is possible that future circumstances might differ from the assumptions on which such statements are based such that actual results are materially different from our forward-looking statements in this release. Important factors that could cause results to differ materially from the statements herein include the following: general economic risks, including those caused by economic challenges, a possible economic downturn or recession and the effects of inflation or stagflation, changing interest rates or reduced information technology spending; supply chain challenges; negative impacts from global conflicts and their related macroeconomic effects; competitiveness in the security market; the dynamic nature of the security market and its products and services; specific economic risks worldwide and in different geographies, and among different customer segments; uncertainty regarding demand and increased business and renewals from existing customers; sales execution risks, including risks in connection with the timing and completion of large strategic deals; uncertainties around continued success in sales growth and market share gains; uncertainties in market opportunities and the market size; actual or perceived vulnerabilities in our supply chain, products or services, and any actual or perceived breach of our network or our customers' networks; longer sales cycles, particularly for larger enterprise, service providers, government and other large organization customers; the effectiveness of our salesforce and failure to convert sales pipeline into final sales; risks associated with successful implementation of multiple integrated software products and other product functionality risks; risks associated with integrating acquisitions and changes in circumstances and plans associated therewith, including, among other risks, changes in plans related to product and services integrations, product and services plans and sales strategies; sales and marketing execution risks; execution risks around new product development and introductions and innovation; litigation and disputes and the potential cost, distraction and damage to sales and reputation caused thereby or by other factors; cybersecurity threats, breaches and other disruptions; market acceptance of new products and services; the ability to attract and retain personnel; changes in strategy; risks associated with management of growth; lengthy sales and implementation cycles, particularly in larger organizations; technological changes that make our products and services less competitive, including advances in artificial intelligence; risks associated with the adoption of, and demand for, our products and services in general and by specific customer segments, including those caused by competition and pricing pressure; excess product inventory for any reason, including those caused by the effects of inflation and changing interest rates in certain geographies and the war in Ukraine; risks associated with business disruption caused by natural disasters and health emergencies such as earthquakes, fires, power outages, typhoons, floods, health epidemics and viruses, and by manmade events such as civil unrest, labor disruption, international trade disputes, international conflicts such as the war in Ukraine or tensions between China and Taiwan, terrorism, wars, and critical infrastructure attacks; tariffs, trade disputes and other trade barriers, and negative impact on sales based on geo-political dynamics and disputes and protectionist policies, including the impact of any future shutdowns of the U.S. government; and the other risk factors set forth from time to time in our most recent Annual Report on Form 10-K, our most recent Quarterly Report on Form 10-Q and our other filings with the Securities and Exchange Commission ("SEC"), copies of which are available free of charge at the SEC's website at www.sec.gov or upon request from our investor relations department. All forward-looking statements herein reflect our opinions only as of the date of this release, and we undertake no obligation, and expressly disclaim any obligation, to update forward-looking statements herein in light of new information or future events.

Use of Non-GAAP Financial Measures

We believe that the presentation of non-GAAP financial information provides important supplemental information to management and investors regarding financial and business trends relating to our financial condition and results of operations. For further information regarding

why we believe that these non-GAAP measures provide useful information to investors, the specific manner in which management uses these measures, and some of the limitations associated with the use of these measures, please refer to the “Explanation of Non-GAAP Financial Measures” section of this press release.

¹ A reconciliation of GAAP to non-GAAP measures has been provided in the financial statement tables included in this press release. An explanation of these measures is also included below under the heading “Explanation of Non-GAAP Financial Measures”.

² Fortinet defines the Rule of 45 as GAAP revenue year over year growth plus non-GAAP operating margin.

Explanation of Non-GAAP Financial Measures

We have provided in this release financial information that has not been prepared in accordance with U.S. Generally Accepted Accounting Principles (“GAAP”). These non-GAAP financial and liquidity measures are not based on any standardized methodology prescribed by GAAP and are not necessarily comparable to similar measures presented by other companies. We use these non-GAAP financial measures internally in analyzing our financial results and believe they are useful to investors, as a supplement to GAAP measures, in evaluating our ongoing operational performance. We believe that the use of these non-GAAP financial measures provides an additional tool for investors to use in evaluating ongoing operating results and trends and in comparing our financial results with peer companies, many of which present similar non-GAAP financial measures to investors.

Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. Investors are encouraged to review the reconciliation of these non-GAAP financial measures to their most directly comparable GAAP financial measures provided in the financial statement tables below.

Billings (non-GAAP). We define billings as revenue recognized in accordance with GAAP plus the change in deferred revenue from the beginning to the end of the period less any deferred revenue balances acquired from business combination(s) during the period. We consider billings to be a useful metric for management and investors because billings drive current and future revenue as well as cash flows. There are a number of limitations related to the use of billings instead of GAAP revenue. First, billings are impacted by the term of security subscription and support agreements and do not provide an indication as to the timing of revenue being recognized from these service contracts. Second, we may calculate billings in a manner that is different from peer companies that report similar financial measures. Management accounts for these limitations by providing specific information regarding GAAP revenue and evaluating billings together with GAAP revenue.

Free cash flow (non-GAAP). We define free cash flow as net cash provided by operating activities minus purchases of property and equipment and excluding any significant non-recurring items, such as proceeds from intellectual property matters. Free cash flow margin is defined as free cash flow divided by GAAP revenue. We believe free cash flow to be a liquidity measure that provides useful information to management and investors about the amount of cash generated by the business that, after capital expenditures and net of proceeds from intellectual property matters, can be used for strategic opportunities, including repurchasing outstanding common stock, investing in our business, making strategic acquisitions and strengthening the balance sheet. A limitation of using free cash flow rather than the GAAP measures of cash provided by or used in operating activities, investing activities, and financing activities is that free cash flow does not represent the total increase or decrease in the cash and cash equivalents balance for the period because it excludes cash flows from significant non-recurring items, such as proceeds from intellectual property matters, investing activities other than capital expenditures and cash flows from financing activities. Management accounts for this limitation by providing information about our proceeds from intellectual property matters, our capital expenditures and other investing and financing activities on the face of the cash flow statement and under the caption “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources” in our most recent Quarterly Report on Form 10-Q and Annual Report on Form 10-K and by presenting cash flows from investing and financing activities in our reconciliation of free cash flow. In addition, it is important to note that other companies, including companies in our industry, may not use free cash flow, may calculate free cash flow in a different manner than we do or may use other financial measures to evaluate their performance, all of which could reduce the usefulness of free cash flow as a comparative measure.

Adjusted free cash flow (non-GAAP). We define adjusted free cash flow as free cash flow plus cash payments associated with real estate purchases. Adjusted free cash flow margin is defined as adjusted free cash flow divided by GAAP revenue.

Non-GAAP operating income and operating margin. We define non-GAAP operating income as operating income plus stock-based compensation, amortization of acquired intangible assets and charges in connection with litigation settlements, less gain on intellectual property matters and, when applicable, other significant non-recurring items in a given quarter. Non-GAAP operating margin is defined as non-GAAP operating income divided by GAAP revenue. We consider these non-GAAP financial measures to be useful metrics for management and investors because they exclude the items noted above so that our management and investors can compare our recurring core business operating results over multiple periods. There are a number of limitations related to the use of non-GAAP operating income instead of operating income calculated in accordance with GAAP. First, non-GAAP operating income excludes the items noted above. Second, the components of the costs that we exclude from our calculation of non-GAAP operating income may differ from the components that peer companies exclude when they report their non-GAAP results of operations. Management accounts for these limitations by providing specific information regarding the GAAP amounts excluded from non-GAAP operating income and evaluating non-GAAP operating income together with operating income calculated in accordance with GAAP.

Non-GAAP net income and diluted net income per share. We define non-GAAP net income as net income plus the items noted above under non-GAAP operating income and operating margin. In addition, we adjust non-GAAP net income and diluted net income per share for a gain on bargain purchase related to acquisition, a gain from an equity method investment related to acquisition, a non-cash charge of impairment on an equity method investment and a tax adjustment required for an effective tax rate on a non-GAAP basis, which differs from the GAAP effective tax rate. We define non-GAAP diluted net income per share as non-GAAP net income divided by the non-GAAP diluted weighted-average shares outstanding. We consider these non-GAAP financial measures to be useful metrics for management and investors for the same reasons that we use non-GAAP operating income and non-GAAP operating margin. However, in order to provide a more complete picture of our recurring core business operating results, we include in non-GAAP net income and non-GAAP diluted net income per share, the tax adjustment required resulting in an effective tax rate on a non-GAAP basis, which often differs from the GAAP tax rate. We believe the non-GAAP effective tax rates we use are reasonable estimates of normalized tax rates for our current and prior fiscal years under our global operating structure. The same limitations described above regarding our use of non-GAAP operating income and non-GAAP operating margin apply to our use of non-GAAP net income and non-GAAP diluted net income per share. We account for these limitations by providing specific information regarding the GAAP amounts excluded from non-GAAP net income and non-GAAP diluted net income per share and evaluating non-GAAP net income and non-GAAP diluted net income per share together with net income and diluted net income per share calculated in accordance with GAAP.
